

IDENTITY SCREEN

Screens for home and business from HARKNESS SCREENS

Harkness Screens is a leading specialist projection screen manufacturer, using unrivalled experience and the latest technology to provide innovative solutions for audio visual, cinema and leisure markets worldwide.

THE PERFECT IMAGE FOR HOME AND BUSINESS

Harkness Screens, the world's leading screenmakers, proudly present the Identity Screen, a new concept in screen presentation and concealment.

The Identity Screen combines a perfectly flat projection surface with electrically operated roll-up printed image.

The frame is made from black epoxy coated aluminium that fits flush to the wall. The roll-up printed image conceals the projection surface when not in use.

Projection Screen Surface

A choice of screen surface is available to give the best picture quality according to projection conditions.

Available surfaces are: Matt White, High Contrast Grey or High Gain White.

Printed Screen

The roll-up printed screen can display any printed image - a corporate logo; a selection from the image gallery; or a personal choice.

Identity Screen sizes

- Five popular sizes
- Two formats - 4:3 and 16:9

Identity Screen 4:3	Identity Screen 16:9
140cm x 105cm	140cm x 79cm
160cm x 120cm	160cm x 90cm
180cm x 135cm	180cm x 101cm
200cm x 150cm	200cm x 113cm
240cm x 180cm	240cm x 135cm

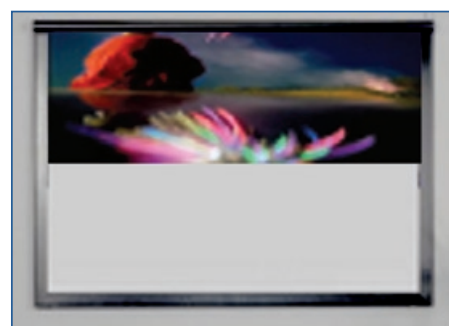

Image gallery

Select from any of the images shown or supply a company / corporate logo or image of your choice.
