

# SNAP-FRAME

Simplicity and style from Harkness Screens

*Harkness Screens is a leading specialist projection screen manufacturer, using unrivalled experience and the latest technology to provide innovative solutions for audio visual, cinema and leisure markets worldwide.*

## The Snap-Frame System

Assembled in minutes, the Snap-Frame System provides the ideal wall mounted or flying frame solution. Snap-Frame is suitable for both front and rear projection systems.

## Application

Snap-Frame screens are recommended for halls, lecture theatres and entertainment venues requiring:

- Large wall mounted frame
- Simple flying or suspended frame
- Front and back multiple image projection (using two surfaces)
- Neat rear of screen with no visible 'ties'

## Construction

Snap-Frames are constructed from lightweight aluminium 1" (25mm) square tube with 'push-in' corners.

Snap-Frame uses press studs to secure the surface to the front of the frame. 3M™ Dual Lock™ fixing is an option for securing projection surfaces.

## Assembly

Frames are supplied flat packed ready for self-assembly, requiring simple hand tools only.

Standard wall fixing by angle brackets and screw.

Special fixing / suspension an option.

## Choice of Screen Surface

Front projection surfaces available are:

- Matt Preview, Matt Plus (Matt White)
  - Perlux 140/180 Gain
  - High Contrast Grey for LCD/DLP projectors
  - Spectral 240 for 3D and Special Effects
- Available either non-perforated or perforated.

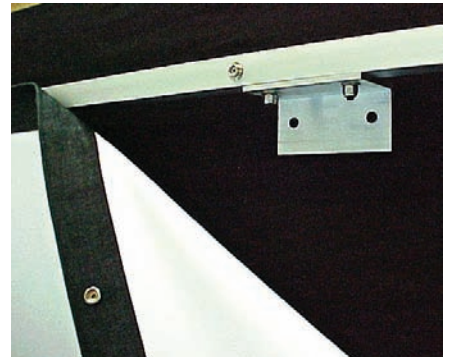

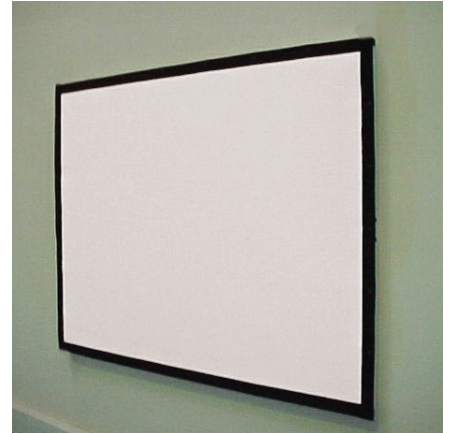

Rear projection surfaces available are:

- RP230
- Translite Grey

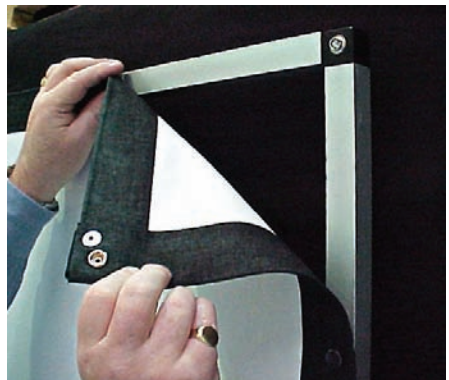

Please refer to Screen Surface Data Sheets for full description of each surface.

## Wide Range of Sizes and Formats

Any size / format is available to a maximum of 8m wide x 6m high. All frames are manufactured to precise customer requirements.

*Direct wall fixing*

*Perfectly flat stud fastened surface, easily interchangeable*
