

PINK EYES

The Pink Eye is an articulating M12 Eye Nut with a SWL of 750 Kg, manufactured with forged material 1.6541, high tensile and annealed. 100% electromagnetic crack detected according to EN 1677-1. Unlike standard eye nut to DIN 582, this eye nut can be used for most unfavourable load directions. These eye nuts can be used with any clamp from the Doughty® range which accepts M12 fixings and should be mounted with a 10.9 graded bolt.
