Continuous Color Control and From any color to any color, anytime are trademarks of Morpheus Lights.

S Fader mounted on an ETC Source 4 ellipsoidal
M Fader mounted on an ALTMAN STAR*PAR™
XL Fader mounted on an ARRIFLEX Compact HMI 4000 W Theater Fresnel

Only the Morpheus **ColorFader™** adds **Continuous Color Control** to your favorite fixtures: Lekos, Fresnels, PARs, 9-Lights, Strobes... Choose the source you want – then get whatever color you want, whenever you want it, with **ColorFader™**.

Scrollers lock you in to the limited choices on the gel roll, and can force you to go dark on a fixture to get past unwanted colors. With **ColorFader™** you're never concerned with gel string position. Just leave the light up and make smooth full-color transitions directly **from** any color **to** any color, **anytime**.

Continuous Color Control means an unlimited selection of colors that you can dial up from your DMX 512 console and fine-tune with precision. It's true CYM color mixing added to the fixture of your choice.

The **ColorFader™** comes in three sizes. Each adapts to a wide variety of fixtures. All are fully digital and engineered to withstand the rigors of the road.

From any color to any color, anytime **ColorFader™**
